

LIBERTY SCHOOL

2001 CABERNET SAUVIGNON

The majority of the Cabernet Sauvignon grapes that make up the 2001 vintage are grown in Paso Robles, located in the heart of California's Central Coast. The wine is a blend of our estate fruit and grapes selected from neighboring vineyards that we contract. By carefully managing our grape sources we ensure that Liberty School Cabernet Sauvignon is consistently delicious, packed with bright, ripe fruit flavors and has a rich, full finish. Each bottle of Liberty School Cabernet Sauvignon is barrel aged and hand-crafted.

The aromatic complexity of this wine is very engaging; blackberry brambles, layered with dark cherry, chocolate and cassis combine in a way typical of Cabernet Sauvignon in its most pure expression. On the palate, initial softness amplifies into a warm, supple firmness. The flavors in the mouth clearly evoke the aromas found in the nose. While this wine is approachable, balanced and elegant today, it will drink beautifully for up to five years from the vintage date.

Liberty School Cabernet Sauvignon is as much a pleasure to drink alone as it is to enjoy with food. It is ideal with grilled meats and vegetables, tomato-based pasta dishes and cheeses from around the world. Liberty School Winery is located in Paso Robles, California - the home of delicious wines that are easy to enjoy.
